(256-343-3749) | shahhetvi990@gmail.com | github.com/hashah88 | hashah88.github.io | linkedin.com/in/hetavi-shah

Education

Bachelor of Science in Computer Science

The University of Alabama – Honors College

GPA: 3.8/4.0

May 2020

Technical Skills

Programming Languages: C/C++, Swift, JavaScript, Typescript, Node.js

Frameworks: Angular, Express

Tools: Git, Xcode

Relevant Experience

DEVELOPER INTERN | INSURESOFT

MAY 2018 – AUGUST 2018

- Wrote front-end code for Diamond REST API documentation using JavaScript and Angular framework
- Created JSON request data and Diamond API code samples in Python so that customers can easily integrate with Insuresoft's services
- Implemented server-side code to load data for different versions of product using Express.js
- Collaborated with developers to design additional features to improve overall functionality of documentation

Projects

Tweety Wallet (Crimson Hacks 2018) <https://devpost.com/software/tweety-wallet>

- Worked with a team to design application that helps user decide what to do with the cryptocurrency using facial recognition
- Designed a user interface to display multiple graphs of the cryptocurrency Twitter data
- Awarded First prize for best use of Amazon Web services

Food Pro <https://github.com/hashah88/foodPro>

- Created IOS app that helps people become familiar with the names of common Indian foods through quizzes
- Implemented User Defaults to keep track of the user's score for each category
- Designed a user interface (UI) using Material Components as well as presented Popup view via animation

Pizza Hunter <https://github.com/hashah88/PizzaHunter-APP>

- Developed IOS RESTful app that allows users to search for Pizza restaurants in the local area and also displays the Restaurant details
- Utilized Yelp API to collect the data and used Siesta framework to smooth the networking process

Open Source <https://github.com/hashah88>

AUGUST 2018 - PRESENT

- Contributing to the Susi IOS app, one of the latest project of FOSSASIA Organization
- Resolved an issue by displaying the users' name instead of users' email address in the feedback

Additional Experience

FRONT DESK CLERK | AMERICA'S BEST VALUE INN

AUGUST 2017 – JANUARY 2018

- Oversaw online reservations and updated the changes in the prices on the hotel's website
- Strategized schedule and supervised the work of front desk employees

TECH SALES ASSISTANT | WIRELESS WORLD

AUGUST 2016 – MARCH 2017

- Troubleshoot customers' technical problems using prior technical knowledge
- Informed customers about issue resolution process with strong verbal and negotiation skills

Honors/Extracurricular Activities

- National Science Foundation Learning in Advance scholarship recipient
- Association of Computing Machinery (2017-Present)
- Emerging Scholars Program (2017 – Present)
- Achieved silver medal in the Tech Fair for computer programming (2015)
